See page 2 for a map of the cities of these participating shops.

We can include as much or as little of each participating shop's info as you like, of course, allowing for the size of ad you are choosing and the number of shops in the hop. These ads are just possible samples. We can use a flier you may already have done up and still link ads, maps, etc as we have done in these examples.

Please note that the Front Range Shop Hop, the website for this hop, and some of the shops listed are fictitious. Links to the listed shops will work, but there is no link to the shop hop website. The links to a map of the shop cities will work.
