December 2009

Volume 5 Issue 3

We've got a lot of changes and new shops to tell you about, so we're just going to launch right into it.

Lots has been happening with the shops as you can see below. These are the new shops that have contacted me since the last newsletter came out in June 2009. I cannot include a map for each in this newsletter due to space limitations. So please give them a call for directions if you're going to be in their area. Many of these shops have ads on our website: www.quilterstravelcompanion.com. Full listings for these shops will be included in the next edition of the QTC. They are listed here alphabetically by state/province and then city.

Update your copy of QTC with the following

It's amazing how much has changed since last June. I felt that moves and closures are most important so I have highlighted those. For moves, if I don't mention any other changes (i.e. city, phone or zip) you can assume they stayed the same. I would suggest making these changes right in your book. It seems in these trying economic times that some shops are having their best years ever, while others have closed. And we're still seeing a lots of new shops opening.

Quilt Shows Changes Pgs 525 - 659

Please note that the shows do change and we try to keep up with the changes via our website. Please check our website to verify any show's information you may be interested in before going to any expense to attend that show. If a show does not appear on the website that is listed in the book, that would indicate that the show no longer happens.

Also we suggest verifying the show with a local source (ie a quilt shop in the area).

Also we would appreciate your feedback about including the shows in the 10th edition in the fashion that we used. Would you like to see them included in the 11th edition when the time comes? Is the way we listed each show's information easy to read and use? Of course, please let us know about any show in your area that isn't listed. And as long as I'm at it, we always appreciate knowing about any new shops in your area or any that may have closed or moved. It takes a concerted effort to keep all this information as accurate as possible and your help is greatly appreciated.

Quilt Guilds:

As you've probably noticed guilds are not listed in the book any longer. They are listed by state on our website. Please note that we rely on the guilds to keep the information up-to-date. Very often a guild address will change with a new president of the guild. Unless the guild supplies this address, we don't have any easy way to keep up with these changes. We did send out an email to guilds asking for updates to their information in early May. Some guilds responded, but a lot did not. So please take the guild information with a grain of salt. We do not have the manpower to verify these addresses. Please use them as you see fit, but please understand how accurate they may or may not be. Checking with a shop in the area would be a good idea, or if the guild has a website, please check out the information listed there also.

Stories and Ideas:

Please send us stories about your escapades using the 'companion'. Also let us know of any ideas or thoughts you've had that would improve the book for you.
