December 2010

Volume 6 Issue 1

A few stories from QTC travelers.

Sharon Baxter, Sacramento, CA

My husband and I have traveled around the country a few times, spending about 3 to 4 months a year on the road each year while pulling a trailer. I still remember the day several years ago, we'd driven about 45 or 50 miles past Greybull, Wyoming, when I realized that we'd passed Bighorn Quilts. My husband, understanding the mental process of a quilter, didn't say a word, he just simply turned around (not really that simple pulling a long trailer!) and headed back to Greybull. It was one of our more memorable quilt shop stops; besides finding some great fabrics, we were able to see how they managed their huge internet ordering business which was really interesting.

Another time we were heading south on Hwy. 101 (California) early one morning when I suddenly needed a quilt shop fix. I used my 'Companion' to locate a store about an hour further south and called Sophie Ann's Quilts in Santa Maria to make sure she'd be open. She was there early doing inventory but said in case I arrived before the store opened, she'd leave the front door open for me. She even told us where we could park our 36' trailer (always a problem when stopping at quilt stores!). We were indeed early, the front door was open and I spent an enjoyable half hour shopping.

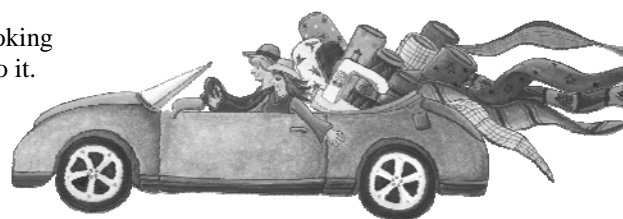

Sherry Darnielle, Des Moines, IA

For the past few years, my sister Diane, Mom and I have taken a combined photographic/fabric shopping vacation. We always take the Quilters' Travel Companion with us. We plan our trips around fabric stores and exciting photographic expeditions. Our favorite shop so far was Somewhere Sewing in Johnson City, TN. Just imagine 9000 bolts of fabric. It was fantastic.

Sherrie Geffe, Eatonville, WA

My friend Mary and her husband flew to Vermont to visit their son and his family. I will be flying to Vermont from Washington and then Mary and I are driving back to Washington. We are using the Quilters' Travel Companion to plan our route home and will try to hit as many quilt shops as possible. We are taking a side-trip before we leave Vermont to New Hampshire and then will do down to Lancaster County, PA. After that we will be on our way.

I'm so looking forward to it.

Quilt Show Organizers

Something new we've added to the show listings on our website. While we still list the basic information for a show for absolutely free in our book on our website we are offering a new option. We can attach a downloadable flyer to your show's listing for only \$25. If interested check out our website or give us a call 800-959-4587.

Quilt Shows Changes

Please note that the shows do change quite a bit and we try to keep up with the changes via our website. Please check our website to verify any show's information you may be interested in before going to any expense to attend that show. If a show does not appear on the website that is listed in the book, that would indicate that the show no longer happens.

Also we suggest verifying the show with a local source (ie a quilt shop in the area). Also we would appreciate your feedback about including the shows in the 11th edition in the fashion that we used. Is the way we listed each show's information easy to read and use and of value to you?

Of course, please let us know about any show in your area that isn't listed. And as long as I'm at it, we always appreciate knowing about any new shops in your area or any that may have closed or moved. It takes a concerted effort to keep all this information as accurate as possible and your help is greatly appreciated.

Quilt Guilds:

As you've probably noticed guilds are not listed in the book any longer. They are listed by state on our website. Please note that we rely on the guilds to keep the information up-to-date. Very often a guild address will change with a new president of the guild. Unless the guild supplies this address, we don't have any easy way to keep up with these changes. We do send out an email to guilds periodically asking for updates to their information. Some guilds respond, but a lot do not. So please take the guild information with a grain of salt. We do not have the manpower to verify these addresses. Please use them as you see fit, but please understand how accurate they may or may not be. Checking with a shop in the area would be a good idea, or if the guild has a website, please check out the information listed there also.

Stories and Ideas:

Please send us stories about your escapades using the 'companion'. Also let us know of any ideas or thoughts you've had that would improve the book for you.

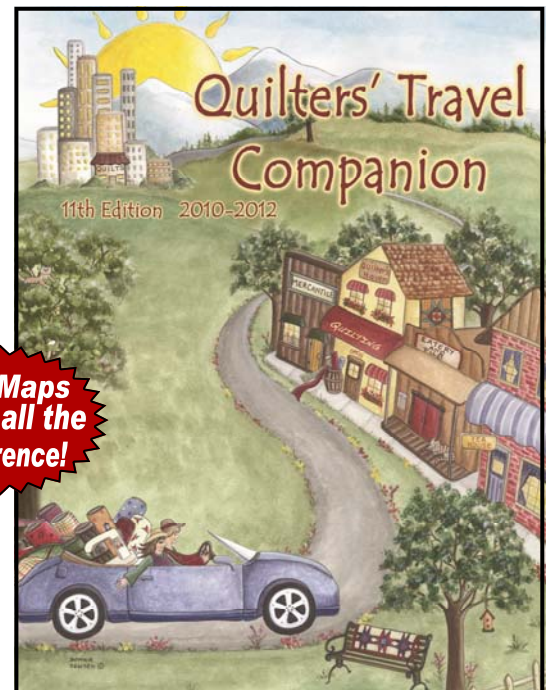

We've got a lot of changes and new shops to tell you about, so we're just going to launch right into it.

Lots has been happening with the shops as you can see below. These are the new shops that have contacted me since the book came out in June 2010. I cannot include a map for each in this newsletter due to space limitations. So please give them a call for directions if you're going to be in their area. Many of these shops have ads on our website: www.quilterstravelcompanion.com. Full listings for these shops will be included in the next edition of the QTC. They are listed here alphabetically by state/province and then city.

Update your copy of QTC with the following

It's amazing how much has changed since last June. I feel that moves and closures are most important so I have highlighted those. For moves, if I don't mention any other changes (i.e. city, phone or zip) you can assume they stayed the same. I would suggest making these changes right in your book. It seems in these trying economic times that some shops are having their best years ever, while others have closed. And we're still seeing lots of new shops opening.
