A couple of stories from QTC users. Send us yours: [stories@quilterstravelcompanion.com](mailto:stories@quilterstravelcompanion.com)

Kathy Mitchell, Polo, IL

I keep the Quilters' Travel Companion in my living room, so I can go on a dream vacation to any state and hit all the shops. Some friends and I were on a week trip to the eastern states (of course I took my book) and found many interesting quilt shops. We had a very kind and patient husband to drive us around. Another time six of us "girls" used a whole day to see as many shops as we could in southern Wisconsin...Wow, what fun!!

Ann Polk, (Newbie Quilter) Beaumont, TX

I just found the Quilters' Travel Companion recently and it has already been very enjoyable. Recently I took a trip using the QTC to get away from the results of our last hurricane Ike. I traveled to Searcy, AK; Prospect/Louisville, KY (alas I was only able to wave at Paducah); and Jackson, TN. I was able to find some wonderful fat quarters for my daughter's baby quilt. All this while traveling with my dog, Teddy, who, I discovered, gets car sick. We had to cut the trip short. But I love to

travel and quilt shop my way on the internet, so I can leave Teddy at home. So the QTC will be a big help.

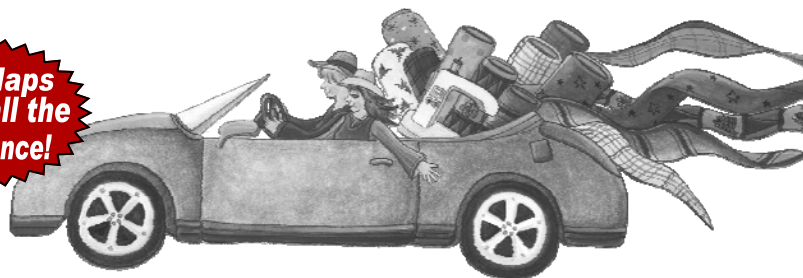

I have a very close friend who agreed to become my quilting mentor and teacher, but was interrupted with a couple of knee surgeries and lately a trip to the local hospital for a month. The doctors couldn't really give a definite diagnosis. My personal one is that she is sick due to not being able to do her normal quilting routine. I told her as soon as she can get back to quilting she will be instantly healed. She agrees. Her birthday was in November while in the hospital. Her 2 quilting daughters sent her a fabulous package of batik fabrics. So I kept it out on her bedside table so she could hold it and enjoy it. She called it "eye-candy medicine".

She's my BQFF--my best quilter friend, Fran. She's cancelling out 2008 totally from her life because she never completed a single quilt. She has 2 full rooms of fabric and a new longarm machine from the 07 Houston Show that she hasn't gotten to use. She has to be treated often for her Batik fabric addiction. (*editor's note: this story was paraphrased*)

Shop Hops -- Shop Hops -- Shop Hops -- Shop Hops -- Shop Hops  
NEW NEW NEW NEW NEW NEW

We are adding a new feature to our website! Soon you'll be able to look for shop hops in the areas across the country that you plan to visit. We've just contacted the shops for this information, so keep checking our website as new 'hops' get added weekly and even daily! Let us know what you think. Is there any information about the hops that we've left out? Should we include these in the book? (Remember the hops change yearly and the book is published every two years.) Certainly we can keep the information up-to-date better on our website.

**The Maps  
make all the  
difference!**

Lots has been happening with the shops as you can see below. These are the shops that have contacted me since the last newsletter came out in December 2008. I cannot include a map for each in this newsletter due to space limitations. So please give them a call for directions if you're going to be in their area. Many of these shops have ads on our website: [www.quilterstravelcompanion](http://www.quilterstravelcompanion). Full listings for these shops will be included in the next edition of the QTC. They are listed here alphabetically by state/province and then city.

# Update your copy of QTC with the following

It's amazing how much has changed since last December. I felt that moves and closures are most important so I have highlighted those. For moves, if I don't mention any other changes (i.e. city, phone or zip) you can assume they stayed the same. I would suggest making these changes right in your book.

### Quilt Shows Changes Pgs 525 - 659

Please note that the shows do change and we try to keep up with the changes via our website. Please check our website to verify any show's information you may be interested in before going to any expense to attend that show.

Also we suggest verifying the show with a local source (ie a quilt shop in the area). Also we would appreciate your feedback about including the shows in the 10th edition in the fashion that we used. Would you like to see them included in the 11th edition when the time comes? Is the way we listed each show's information easy to read and use? Of course, please let us know about any show in your area that isn't listed. And as long as I'm at it, we always appreciate knowing about any new shops in your area or any that may have closed or moved. It takes a concerted effort to keep all this information as accurate as possible and your help is greatly appreciated.

**Index Changes**

Note: We are not including the moves and closures already mentioned.

**Quilt Guilds:**

As you've probably noticed guilds are not listed in the book any longer. They are listed by state on our website. Please note that we rely on the guilds to keep the information up-to-date. Very often a guild address will change with a new president of the guild. Unless the guild supplies this address, we don't have any easy way to keep up with these changes. We did send out an email to guilds asking for updates to their information in early May. Some guilds responded, but a lot did not. So please take the guild information with a grain of salt. We do not have the manpower to verify these addresses. Please use them as you see fit, but please understand how accurate they may or may not be. Checking with a shop in the area would be a good idea, or if the guild has a website, please check out the information listed there also.
